

HMH-464 Unit & Family Readiness

WELCOME:

On behalf of the HMH-464 Family Readiness Team I would like to take this opportunity to welcome you to the Condor Family. It is my absolute pleasure and honor to be allowed to support your Family, Marines and Sailors.

INFORM:

The HMH-464 Family Readiness Program is designed to equip the entire Condor Family with the tools they need to meet the challenges of military life. My duties include official communication, family outreach, readiness and deployment support, volunteer management, administrative support and information & referral both aboard the base and in the local community. I will be providing you with local activities, resources, and opportunities through the Condor Weekly E-news. If you are not currently receiving this information and you would like to, please contact me right away to be put on the distribution list.

EDUCATE:

As your Family Readiness Officer, I am here to serve you and your families by making sure you receive the resources that you need to be successful Marines, Sailors and Families.

It is also my job to direct you to the many classes and seminars that MCCA and the Marine Corps offer to you and your family for a wide range of topics. Lifestyle, Insight, Networking, Knowledge and Skills or L.I.N.K.S, is probably the most utilized of all and in my opinion, the most important for any military family member. In taking this class family members of all ages are given the information and tools they need to help navigate their time with the Marine Corps. Things like local resources, support programs, tips for dealing with deployments, reducing stress during moves, pay and entitlements and much more! This class is especially recommended for spouses, but is available for children, teens and parents too! Contact me if you are interested.

INVOLVE:

I am available to the Marines, Sailors and family members anytime to answer questions and direct you to the proper resources that you may require. As well, I am always open to your ideas and any suggestions you may have to improve the Family Readiness Program.

You also have the option of becoming a Squadron Morale Volunteer, Assistant, or Advisor. For more information on volunteering please contact me.

You are important to us—our direct family, our extended family, and our Marine Corps Family. We again welcome you to our Condor Family. Best Wishes and I look forward to working with you and your family members.

Samantha S. Miller
